Conversion Set**
for Airfix kit

D - decal sheet part1 + part 2

CP - Clear parts

CP1

PUR - Polyurethane parts

© Special Hobby 2021

Díly ohnuté popř. pokroucené vlivem teplotních změn a stárnutí materiálu, mohou být narovnaný do požadovaného tvaru pomocí proudu teplé vody nebo vzduchu (fén na vlasy). K lepení použít kyanoakrylátové lepidlo! Kontaktní plochy doporučujeme před lepením odmastit. Různé drátky a tyčinky nejsou přiloženy.

Parts slightly distorted and bent owing to temperature changes or due to material aging can be straightened to requested shape by hot water or hot air jet (hair dryer). This process can be repeated till result is entirely satisfactory. For best result use cyanoacrylate glue! Ungreasing contact areas is recommended before gluing. Wires and rods not included.

If you use the exhaust with heating (piece PUR2), drill a hole into the engine nacelle where the end of PUR2 enters it.

RAAF Beaufighters MK.21 used mostly exhausts without heating (PUR2).

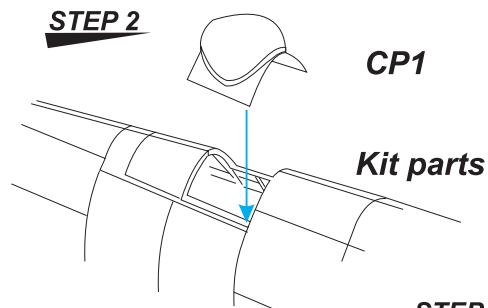

Při použití výfuku s topením (s dílem PUR2) vyvrtejte v místě vstupu zakončení dílu PUR2 otvor do motorové gondoly.

RAAF Beaufightery Mk.21 častěji používaly výfuky bez topení (PUR3)
